IT Enterprise Laptop Upgradation Policy

1. Purpose & Lifecycle Rules

This policy defines the hardware refresh and upgrade standards for enterprise laptops across all departments.

2. Hardware Allocation Matrix

Role / Band	Standard Model Configuration	Refresh Cycle
Tier 1: General Corporate	Dell Latitude / Lenovo ThinkPad (i5 / 16GB RAM / 512GB SSD)	36 Months (3 Years)
Tier 2: Engineering & Tech	MacBook Pro 14" / ThinkPad T-Series (M3 Pro/i7 / 32GB RAM / 1TB SSD)	36 Months (3 Years)
Tier 3: High Performance / AI	MacBook Pro 16" / Precision Workstation (M3 Max/i9 / 64GB RAM / 2TB SSD)	24 Months (2 Years)

3. Eligibility Criteria for Upgrades

- Completion of standard device lifespan (24 to 36 months depending on Tier).
- Irreparable hardware failure or unrecoverable system performance issues.
- Role progression requiring higher hardware specifications approved by Department Head.

> **Asset Return Notice:** Old devices must be backed up and returned to IT within 10 business days of receiving new hardware for secure NIST 800-88 data wiping.
